

# CHOC AFFAIR

Choc Affair is committed to sustainability, minimising our environmental impact and enhancing the communities we are a part of.

Our journey started in Linda's kitchen in 2006; and we continue to delight in handcrafting delicious-tasting chocolate today, sharing the joy that chocolate ignites in us. We are proud of our British heritage – so we're 100% committed to using UK suppliers for all our packaging.

We take our role in caring for our planet seriously. Ensuring that our chocolate is made from sustainably grown cocoa, and the ingredients we use are completely free from palm oil. 75% of our packaging is widely recyclable too; and we aim to improve on this further.

Our Inclusive Employment Initiative involves working with local agencies to provide employment opportunities for people who find accessing the workplace difficult. Further afield, we financially invest in a children's sponsorship programme based in Uganda.
